Marquelle QUALITY No. 1-570

Snowbound

Friday Nov. 24th 1950

We awoke to find about 3 in. of snow covering everything in sight and a light snow still falling. It had begun about 1:30 a.m. Don and Gene left for Columbus at 8 a.m. and lucky they did for by evening we had at least a foot of snow and still snowing. Traffic was tied up literally bumper to bumper in Ymuyo. Everyone managed to get home even tho some were hours late getting there. Bob went out to work at 10:30 P.M. — drove the cars but went by way of Struthers to avoid the hill & bridge at Center St.

Saturday Nov. 25th

S - Day

Snow day

3. We awoke this morning to find "tons" of snow every where. We started to shovel in front of the garage to get the truck out and got it as far as the back door & realized there just wasn't any use. Mr. Myers had shoveled almost all his drive by then and found when he got to the road that he'd have to shovel the road all the way to work

4. if he wanted to go. So we gave up came in the house, listened to the radio, played canasta & generally took a holiday. The Ohio-State Mich. game was played as scheduled so we listened to that. I had called Columbus last nite to see if the boys arrived safely and Don said it was bad to Worster then eased up and by the time they got to Col. the sun

5. was shining and there was only a light covering of snow around here on the roads at all. But by today it had begun snowing and blowing there so that the game was played under great difficulty. Snow and ice underfoot made it a punting & kicking game & even then the ball was so slippery a kick wasn't effective. O.S. beat 7 to 3 We kept shoveling off and on as we could muster up

6. strength to do so. By 8 P.M. we (we was dad & I - Ruth helped a little in the morning and Bob had his left hand Metal yet.) had gotten as far as the side-walk. Where we shoveled it up at the sides it was as high as our shoulders. Looked like a snow fort. The Butch came along with his road scraper about 9 P.M. and a couple cars at the end of the street ventured out

7. but I doubt if they got far for Ruth walked to Pleasant and said the only cars down there were ones that were stuck & abandoned. A convertible was across the road at Boardman road covered with snow. The stores were open but people were going on foot and on horse back to get bread & milk which sold out fast. no mail coming in, nothing coming in, in fact. Radio stations were broadcasting weather conditions, warnings, advice to

8. stay off the streets in case anyone was foolish enough to try to get a car out. Warnings to only use the phone for Emergency calls (there were many Emergency calls tho, family checking on each other, etc.) Our family was O. K. Dave managed to get a gallon of milk so Kathy didn't go hungry, and the grocers got some in Howellville, so for the time being every one was warm and had food to eat. It kept snowing most

9. all day so by Tuesday the report was 25 in D Ruder. Katharine Beggs picked today for her son's birthday so they had to send a road scraper out her way to get the Drs out there & deliver it at home. She had a boy Mark Hamilton - and everyone's doing fine, even her mother who came from Missouri to be with her but never expecting she really help at the birth. Betty Lou Smith, a neighbor helped, too. Other babies were

10. born at home or the mothers were taken to the hospitals by army truck, the only vehicle that could get thru. Bob called at 3 P.M. & said they were shutting down, and he'd start walking home as the cars were completely snowed in even if he wasn't he couldn't move it on the street. We waited up till midnight for him and he had not come and no word so we finally went to bed & D got up at 3:30 and went to look & he was in bed sleeping then —

11. later said Leid gotten in about 3, very tired - walked all the way of course.

Saturday Nov. 26th Still snowing and blowing. We dug out the rest of the plane - Capt got his dug out then got the car out & went to Pleasant but did a lot of sliding around & said Poland was a mess. About noon Bob took Dad as far as Judge Lyons & then he walked from there to the corner & got a ride the rest of the way on a truck

12 to the store. He was afraid Leid get the truck stuck so made Bob turn back at Lyons. Drunk & fluffy had gotten up to the store by walking and riding trucks, etc. and had it open and a fire made and were selling bread & milk as fast as they could hand it out. Gertrude came up too and they were very busy till about 8:30 P.M. then Bob went for Dad. Midloth. had been scraped a little by then so he could get thru. The road scrapers

13. Came up our street again & most everyone got their drives dug out so a few cars were going up & down this evening. The sun came out bright about noon & was out for a while & this evening the moon came out & announcers were telling us the storm was over, all we needed do now was dig ourselves out. Most stores, offices & banks were to be closed tomorrow by general agreement and announcement on radio. Only food

14. Stores & drug stores open, some announcing only emergency supplies milk, oil, butter, babies etc. The Sunday Visiter was published by air instead & didn't today. Even Father Hartfelter wrote of her column from her home. By this eve. they announced 31 in of snow.

Monday Nov. 27th
Bob & Dad both went to work this morning at 7.
About 7:30 a. m. it

15. began snowing again. Quit about noon, so didn't pile up much just kept every thing snowy clean + white. Stores still closed today except food + drug stores.

Tues. Nov. 28th Snowed a.m again but not much. Scrapers are getting around now so traffic is going thru although no place to park in town. Closed. Nov. 29th Stores opened in town today but no cars allowed in downtown section. Only buses + taxis. This congested Mkt. St. + South Ave. So much they finally removed barricades about 10 a.m.

Thurs. Nov. 30th Things almost back to normal, most delivery trucks getting thru now. Snow settled a lot today. They have young's streets pretty well cleaned of snow. They are dumping the snow in the Mah. River.

Friday Dec. 1st. Sun shone nearly all day. Snow melted under - neath soaking into the ground.

Sat. Dec. 2. Snow settling fast as temp- went up to 50° today.
